Door lock for 6' 8" doors	65mm	SS	5	6-40526-07-R-8B
Door lock for 8' doors	65mm	SS	5	6-40526-08-R-8B
PU = Packaging Unit				

Simply Close the Door!

As soon as the door is pulled shut, the Automatic latchbolts instantly throw 20mm and are secured to prevent them from being forced back. By turning the key or the knob, the center deadbolt will engage and lock the top and bottom latchbolts to become a **3-deadbolt locking system**.

Additional information

- 3-point, one piece locking system for 6' 8" and 8' doors
- Heavy duty mortise construction with reinforced lever return spring system
- Locking by PZ cylinder with 180° turn of key or thumb-turn
- Unlocking with 180° turn to retract the deadbolt and another 180° turn to retract the latches
- No lifting of handle to engage locking points
- Top and bottom Automatic latchbolt projection from 10 to 20mm:
  - Provides security
  - Protects the door
- 3/4" (20mm) throw on deadbolt
- Non handed, latch easily reversible
- 8mm square spindle
- 92mm centres (spindle to cylinder)
- 16mm stainless steel faceplate with radius ends for easy installation and cleaner look
- Same hardware groove detail throughout our entire door lock program (jig, router base and bits available)
- Extensions with additional lock point are available for doors taller than 8'
- 360° turn with profile cylinders

Construction Key

Description	Color	PU	Part Number
Key	Black	10	9-U0001-01-0-0
			PU = Packaging Unit

Additional information

The construction key is available for those who prefer to install the decorative hardware trim and lever sets on doors after the construction has been completed. Installing the escutcheon plates and levers in the final stage of construction prevents the decorative trim from becoming scratched or damaged.

The construction key has been designed to accommodate multipoint door hardware (8mm square), tilt-turn hardware (7mm square) and lift-slide hardware (10mm square).

Information in this document can be modified without notice.
