**Ferco lever handle sets** are uniquely designed to operate on multipoint door locks. Our handle sets can deal with the daily wear and tear of operating multiple locking points, being that either by lifting or depressing to engage or disengage the multiple locking points. **Our handle sets are designed for long term use!**

- **Patented handle snap-rings** allow for handles to be shipped non-handed. The manufacturer no longer has to worry about ordering left or right, and will save on inventory.
- **Handle setscrews to fasten spindles** combined with the snap-ring will ensure the handle will stay tight on the door for a long time.
- **Self centering 8mm split Spindle** to make sure it is always centered into the door.
- **Longer Screw ports on escutcheons:** Ferco has added an interior sleeve port that will guide the M5 mm screw straight to the opposing exterior screw port.
- **Exterior O-ring on handle shaft** to prevent water from entering around the exterior handle.
- **Washers between handle and escutcheon** making sure the handle operation is and remains smooth.
- **Handle shaft length for increased handle support** to minimize the handle from rocking on the escutcheon.
- **Escutcheon Foam gasket** to prevent air and cold.
- **Rubber gasket** to prevent air and water leakage around the exterior escutcheon.
- **Schlage Cylinder with one tail for both 1 3/4" and 2 1/4" thick doors**
- **M5 handle set screws to fasten the escutcheons** included in every handle set kit.
- **Handle above cylinder or handle below cylinder option**
- **Handle shaft extension**
- **Available finishes in our solid brass series handle sets**
- **Enhanced packaging** to make sure each part are protected against damage during shipping.
