GU-SECURY S-Bolt Locking System

for Single/Double Doors

The Smart System for Double Doors

Ease of use, the system does not allow home owners to lock the active door unless the inactive door is fully locked. This guarantees that both doors are fully locked and secured.

Full 1" shootbolts offer deeper penetration into the head and sill

Easy to connect the extension to the lock

Latch and deadbolt blockers are design for intuitive operation
Latch and deadbolt blockers are designed to provide communication between the semi-active and active door panel so both panels are lock in the correct sequence

Reversible latch with build-in anti-slam feature

Additional active panel three point locking options are SECURY hookbolt or Automatic latchbolt

Ferco lever handle sets are uniquely designed to operate on multipoint door locks. Our handle sets withstand the rigorous everyday operational wear & tear of engaging or disengaging multiple lock points. **Our handle sets are designed for long term use!**

- **Patented handle snap-rings** allow for handles to be shipped non-handed. The manufacturer no longer has to worry about ordering left or right, and will save on inventory.
- **Handle setscrews to fasten spindles** combined with the snap-ring will ensure the handle will stay tight on the door for a long time.
- **Self centering 8mm split Spindle** to make sure it is always centered into the door.
- **Longer Screw ports on escutcheons:** Ferco has added an interior sleeve port that will guide the M5 mm screw straight to the opposing exterior screw port.
- **Exterior O-ring on handle shaft** to prevent water from entering around the exterior handle.
- **Washers between handle and escutcheon** making sure the handle operation is and remains smooth.
- **Escutcheon Foam gasket** to prevent air and cold.
- **Rubber gasket** (Order separately) to prevent air and water leakage around the exterior escutcheon.
- **Schlage Cylinder with one tail for both 1 ¾" and 2 ¼" thick doors**
- **M5 handle set screws to fasten the escutcheons** included in every handle set kit.
- **Handle above cylinder or handle below cylinder option**
- **FERCO handle sets available** in Solid Brass or economical zinc die-cast material with selections in many plate designs, lever styles and finishes.
